

Kao jedan od najljepših u dugoj niski atraktivnih otoka hrvatskog Jadranu, Zlarin jedini njeguje tradiciju lova i prerađe dragocijenog crvenog koralja (*corallium rubrum*). Na otoku su pronađeni ostaci još iz predrimskih vremena, ali se prvi put spominje tek u 13. stoljeću kada je bio u posjedu Šibenske biskupije. Od 1438. Zlarinjani love koralje po cijelom Jadranu te na Sredozemlju.

Zlarin je zeleni otok bez automobila, raj za djecu, idealan za potpuni odmor, uživanje u šetnji, vožnji biciklom i kupanje u kristalno čistom moru. Zlarinska je luka zaštićena od južnih i sjeveroistočnih vjetrova te je omiljeno odredište nautičara. Zlarin je iznjedrio te okuplja mnoge darovite i poznate ljude. Tijekom ljeta na otoku ne manjka kulturnih sadržaja i manifestacija što zbog poznatih pojedinaca u različitim područjima društvenog života koji su vjerni prijatelji Zlarina, što zbog lokalnog stanovništva. Svake godine organiziraju se brojna događanja kao što su izložbe, likovne kolonije, škola čakavštine, tradicionalna fešta Srdelada, brojne dječje likovne, glazbene i dramske radionice te u sklopu istog projekta finalnu predstavu na trgu ispo'Leroja u kojoj uz otočku djecu, sudjeluju i odrasli pod vodstvom nekih od najpoznatijih hrvatskih glumaca, pjevača, slikara. Jako značajna manifestacija za Zlarin je „Ispraćaj koraljara“ kojom se zorno prikazuju običaji predaka uz zanimljive popratne sadržaje kao što je prikazivanje filma „Princeza koralja“, pranje robe na „Vrulji“, obrada koralja uz pjesmu i ples KUD-a Koralj i prijatelja. Zadnje dvije godine, neumorni Zlarinjani razvili su još jedno veselo događanje na ovom prekrasnom otoku - „Brudetijadu“ gdje od kasnih popodnevnih sati na središnjem trgu Fingac organiziraju natjecanje u kuhanju brudeta.

# ZLARIN

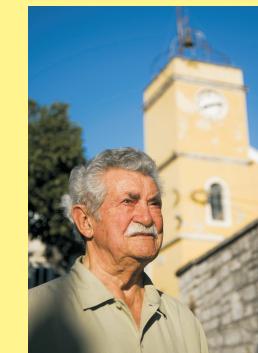

## island of red coral

As one of the most attractive in the long low islands of the Croatian Adriatic, only Zlarin keeps the tradition of hunting and processing of precious red coral (*corallium rubrum*). On the island had found remains from pre-Roman times, but it was first mentioned in the 13th century when it was under the Bishopric of Sibenik. Since 1438th its inhabitants hunt corals around the Adriatic and the Mediterranean.

Zlarin is a green island with no cars, a paradise for children, ideal for complete rest, enjoying walking, cycling and swimming in the crystal clear sea. Port of Zlarin is protected from south and northeast winds and is a favourite destination for boaters. Zlarin spawns and brings together many talented and famous people. During the summer, the island lacks no cultural facilities and events because of the well-known individuals in various areas of social life that are true friends of the island and because of the local population. Every year they organize a number of events such as exhibitions, art colonies, school of "Cakavstina", traditional event *Srdelada*, numerous children's art, music and drama workshops and within the same project, the final show on the square *ispo'Leroja* where the island's children and adults participate under the leadership of some of the most famous Croatian actors, singers, painters. A very significant event for Zlarin is "*Ispracaj koraljara*" which graphically depicts the customs of ancestors with interesting supporting facilities such as the screening of the movie "The Princess coral", laundry wash at the "Vrulja" and processing corals with song and dance by KUD Coral and friends. The last two years, tireless inhabitants have developed another event on this beautiful island - "*Brudetijada*" where in the late afternoon at the central square *Fingac* they organize competition in cooking fish stew.
